Make it Last!

Caring for your natural bamboo products is easy. Just follow these simple guidelines to keep it looking new.

- Clean after each use, especially if wet.
- Handwash with mild soap and water.
- Wipe with clean towel and let air dry.
- Store upright in a cool, ventilated spot.
- Re-season with oil as needed(see below)

All About Bamboo Seasoning

Like all woods, bamboo needs oil to be its best. Your Bambüsi product ships oiled, but will need more with use. Proper seasoning with the right oil helps protect against moisture, cracking, warping, knife damage, smell/flavor transfer and more

1. Handwash with mild soap and water, dry thoroughly.
2. Apply a thin layer of food-safe vegetable or mineral oil.
3. Use lint-free cloth to massage every inch of wood.
4. Store upright in ventilated, shaded spot to absorb and dry.

Enjoy!
